

West Asia lithium energy storage power customization company

LFP 280Ah C&I

Overview

Is China a leader in lithium-ion battery energy storage?

China, as one of the leaders in the world's new energy industry, has gathered many companies that are deeply engaged in the field of lithium-ion battery energy storage and have advanced technology.

Who is lithium storage?

Lithium Storage has been dedicated to putting lots of resources and research to increase our battery technology for electric trucks territory. As a professional lithium battery solution supplier, Lithium Storage is supplying standard VDA size modules.

Why should you choose lithium storage?

The innovative and professional R&D and operation team with more than 10 years of projects and industrial experience gives LITHIUM STORAGE competitive advantages in quality stability, rapid response, and professional solutions. The global economy is experiencing a transition from carbon-intensive energy resources to low-carbon energy resources.

Are lithium ion batteries a good energy storage system?

Lithium-ion batteries are the most favourable electrochemical energy storage system for electric vehicles and energy storage systems due to their high energy density, excellent self-discharging rate, high operation voltage, long cycle life, and no memory effect.

What are the certifications of our lithium-ion battery factory?

Our lithium-ion battery factory has successively passed the authoritative quality management system certification such as ISO9001, IATF16949, ISO14001, and ISO45001, and our products have also received international certifications such as MSDS, UN38.3, UL, IEC62619, JET, and BIS.

What is a Bess – a lithium ion based containerised power plant?

Singapore, 16 May 2023 – Durapower's BESS, a high-performance, liquid-cooled, lithium-ion based containerised BESS, was established at Banpu NEXT's Solar Hybrid Power Plant for self-consumption at an Indonesian mining site to meet operational demands.
