

Where can I find outdoor power in Samoa

Overview

What type of power outlet does Samoa use?

Samoa uses power outlets and plugs of type I. Take a look at the picture below to see what this plug and power socket looks like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type I - Used in Australia, New Zealand, the South Pacific, China and Argentina.

Can you use a charger in Samoa?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Samoa outlet. Samoa uses electrical outlets and power plugs of type I (see images).

What voltage does Samoa use?

The voltage in Samoa is the same as in Europe. However, Europeans will need a travel adapter when traveling to Samoa. What Outlet does Samoa Use?

Type I plug sockets are used in Australia, New Zealand. They have two flat pins and a grounding pin. These plugs are typically used with devices that have a voltage of 230V.

Do I need a power adapter in Samoa?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Samoa, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Samoa is 230 V, and the standard frequency is 50 Hz.

Can a universal power adapter fit a Samoa outlet?

Universal power adapters usually come with multiple plug types and can be adjusted to fit Samoa outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

Do electrical appliances work in Samoa?

This means that electrical appliances designed for use in Samoa will operate at these specifications. If you are traveling to Samoa with electronic devices from a country with a different voltage or frequency, you will need to use a power adapter and possibly a voltage converter to ensure safe and proper operation of your devices.
