

A black, rectangular, sealed lead-acid battery is shown from a three-quarter perspective. It features two silver-colored metal handles on top for carrying. On the right side, there is a red terminal cap. The battery has a matte black finish and is set against a plain white background.

Overview

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

Why do you need a batteryguard Battery Cabinet?

With a Batteryguard battery cabinet, you charge and store your batteries with complete peace of mind. You protect your staff, prevent damage, and meet the requirements of your insurer. And in some countries, you may even benefit from financial incentives or grants. Do you have any idea whether your business is at risk of a battery fire?

.

Are all XL battery cabinets VDMA 24994 certified?

All XL models are VDMA 24994-certified, providing proven safety. Want to quickly find out which model is best suited to your location?

Answer a few short questions in our model finder and instantly discover the battery safe that fits your needs. By choosing Batteryguard battery cabinets, you're opting for the safest solution.

Are batteryguard batteries safe?

This way, you protect your business while meeting the requirements of insurers and safety regulations. No matter what type of batteries you use – small or large, many or few – there is always a Batteryguard battery safe that suits your working environment. All XL models are VDMA 24994-certified, providing proven safety.
