

Which is the largest energy storage project in Kosovo

Overview

On the other hand, Battery Energy Storage System is the largest single storage project in the region and beyond. What is the energy strategy for Kosovo?

The Kosovo energy strategy includes increasing RES capacity to 35% of electricity consumption by 2031. Aiming for 600 MW wind, 600 MW solar PV, 20 MW biomass & at least 100 MW of prosumer capacity, to reach a total installed RES capacity of 1600 MW by 2031. Lignite exploitation in Kosovo started in 1922.

Which companies are affecting the energy sector in Kosovo?

Besides government institutions, there are also companies with great impact in energy sector such as Kosovo Energy Corporation (KEK), Transmission, System and Market Operator (KOSTT) and Kosovo Electricity Distribution and Supply (KEDS). A lot of legislative documents that aim the adjustment of electricity sector have been approved.

What is the energy storage project?

The Energy Storage Project aims to support Kosovo's energy security and transition to a cleaner energy future.

What percentage of energy is produced in Kosovo?

Around 90% percent of energy production in Kosovo is from lignite, a soft coal that produces toxic pollution when burnt. Official figures show Kosovo has the world's fifth largest lignite reserves of 12-14 billion tonnes. Our Standards: The Thomson Reuters Trust Principles.

Which is the largest energy storage project in Kosovo

[Kosovo battery energy storage system bess](#)

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.
